## FOR IMMEDIATE RELEASE

## Georgia Power Federal Credit Union Announces New Mobile Banking Application --Bank Anytime. Anywhere. --

ATLANTA, GA. February 24, 2011- Georgia Power Federal Credit Union (<u>CUontheGrid.org</u>), a nonprofit financial cooperative, serving employees of the electric utilities industry has launched free Mobile Banking. Georgia Power FCU members enrolled in Online Banking can now access their accounts from their web-enabled smartphone or tablet; Mobile Banking applications available for Android, iPhone and iPad.

Georgia Power FCU Mobile Banking allows members to access account information, view transaction history, transfer funds, and find a branch location or ATM from their mobile device. "Mobile Banking extends our commitment to providing our members with convenient access to their accounts. We serve members in 50 states. Adding the always on accessibility enables us to serve members effectively through this fast growing technology." said Emily James, President/ CEO of Georgia Power FCU. "We continually look for new and innovative ways to enhance our members' experience whether they conduct business with us over the phone, in person, on our website, or now, via their mobile device."

Georgia Power FCU's Mobile Banking is a secure channel for transacting business with the credit union. The security is assured with SSL encryption, which keeps member information secure when connected to their Georgia Power FCU accounts. Members can download the Android app from the Android Market or download the iPhone/iPad app from iTunes.

Georgia Power Federal Credit Union, believes in the philosophy of "where members come first!". Working hard to serve members wherever they live – soon Georgia Power FCU will offer remote deposit capture, mobile deposit, online account opening, and online account funding. Creating a convenient, always open banking experience is just one way Georgia Power FCU helps members save time and money.
